BUILDING A NEW AGRICULTURE

BIOGROW MOL

BIOGROW MOL is 100% soluble liquid organomineral fertilizer.

Due to the raw materials of plant origin and the modern industrial process used to manufacture **BIOGROW MOL**, a liquid product is obtained with a high content of Organic Matter (greater than 34%), composed of humic extracts (44%), amino acids (17.4%) and sugars (8.8%).

These elements and active ingredients applied through irrigation systems to crops and fruit trees will improve soil structure, water retention in the soil, cation exchange capacity, nutrient absorption, stimulate root growth and enhance microbiological activity in the soil, to allow better development of roots and crops.

BIOGROW MOL it's a fast and effective tool to improve the physical and chemical characteristics in the soils with low content of organic matter.

GUARANTEED ANALYSIS 7-0-1

Total Nitrogen (N)	7.20
4.1 %	Ammoniacal Nitrogen
3.1 %	Water Soluble Nitrogen

Soluble Potash (K ₂ O)	1.28 %
-----------------------------------	--------

Calcium (Ca)	0.23 %
--------------	--------

Sulfur (S)	2.12 %
------------	--------

Derived from: vinasses

GUARANTEED ANALYSIS

Soil Amending Ingredients

Humic Extracts	33.04 %
4.82 %	Humic Acid
28.22 %	Fulvic Acid

Total other ingredients	66.96 %
-------------------------	---------

F003308

Density: 84.27 lb/ft³ (1.35 gr/ml)

Manufactured by: **BIOGROW BIOCHEMICAL SPA**
 Address: Volcán Licancabur # 841, Pudahuel, Santiago, Chile
 Phone: (+56) 2-23078985

Imported by: **BIOGROW USA CORP**
 1446 E 33rd St.
 Signal Hill, CA 90755

APPLICATION RATES

Crop	Dose gal/ acre	Timing of Application
Coffee	4.0 - 6.0	Apply during vegetative growth.
Wine grape Table grape	4.0 - 6.0	Apply in bud break, during the growth of the fruits and in post harvest.
Mangoes, Avocado	4.0 - 6.0	Apply during root growths.
Apple, Pear , Cherry, Plum, Peaches, Nectarine	2.0 - 3.0	apply 2 to 3 applications throughout the life cycle of the fruit, repeat post-harvest during root flash
Strawberry, Blueberry	2.0 - 3.0	Apply every 30 days throughout the crop.
Tomato, Capsicum	2.0 - 3.0	Apply from transplant and throughout the vegetative growth, every 15 to 20 days.
Melon, Watermelon, Squash	2.0 - 3.0	Apply after transplant and repeat every 15 days.
Onion, Garlic & Leafy Greens	2.0 - 3.0	Apply during vegetative growth every 15 to 20 days.
Flowers	2.0 - 3.0	Apply during vegetative growth every 15 to 20 days.

CAUTION

- Shake the packaging before opening.
- Do not apply during the hottest hours of the day.
- Exclusively agricultural use as fertilizer for plants.
- Store the product in places out of reach of children or animals.
- Store in a cool place protected from direct sun light.
- Respect maximum stowage height.

BIOGROW MOL is compatible with most fertilizers applied via fertigation / drench, but it is recommended to perform a compatibility test of the mixture before use.

EXPIRY

Best before 3 years from manufacture date.
