ROOTVOLUTION

ORGANIC

GUARANTEED ANALYSIS **2-0-0.4**

Total Nitrogen (N) 2.00 %
2.0 % Water soluble Nitrogen

Soluble Potash (K₂O) 0.4 %

Boron (B) 0.20 %

Iron (Fe) 4.0 %
4.0 % Water soluble Iron

Manganese (Mn) 1.00 %
1.0 % Water soluble Manganese

Molybdenum (Mo) 0.05 %

Zinc (Zn) 0.11 %
0.11 % Water soluble Zinc

Derived from: Hydrolyzed vegetable protein, Seaweed extracts, Ferrous sulphate, Boric acid, manganese sulphate, zinc sulphate and sodium molybdate

F003308

Density: 79.39 lb/ft³ (1.27 g/ml)

ROOTVOLUTION is an fertilizer, with a high concentration of iron.

The formulation of **ROOTVOLUTION** has been developed specifically to promote a greater volume of roots. As a result, plants are more tolerant to stress and produce higher yields.

ROOTVOLUTION must be applied by Fertirrigation after the transplant and during the growth of the roots, in the cultivation of fruit trees, vegetables and flowers.

ROOTVOLUTION it also helps the recovery of plants by stress caused by pest attacks or applications of herbicides.

BATCH AND MANUFACTURING DATE

See the packaging

EXPIRATION

Best before 3 years from manufacture date.

NET CONTENT: 5.0 gal (18.92 l)

NET WEIGHT: 56.3 lbs (23.26 K)

Imported by: **BIOGROW USA CORP**
1446 E 33rd St.
Signal Hill, CA 90755

APPLICATION RATES

Crop	Fertigation Rate pint/ acre	Timing of Application
Tomato, Melón Capsicum	4.0 - 5.0	First application in the transplant repeat in flowering
Strawberry	4.0 - 5.0	First application in the transplant repeat at intervals of 3 weeks
Blueberry	4.0 - 5.0	At the beginning and during root growth
Citrus	6.0 - 8.0	Apply at the beginning of root growth
Stone fruit	6.0 - 8.0	Apply at the beginning and during root growth
Pome fruit	6.0 - 8.0	Apply at the beginning and during root growth
Banana	4.0 - 5.0	Distribute applications throughout the crop cycle
Grape, Olive Avocado, Mango	6.0 - 8.0	During the root growth
Potato	4.0 - 5.0	Apply during planting in the furrow
Vegetables	4.0 - 5.0	First application in the transplant repeat in flowering

CAUTION

The use of this fertilizing material on any crop(s) other than those recommended may result in serious injury to the crop(s).

The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

"Information regarding the contents and levels of metals in this product is available on the Internet at (biogrowcompany.com/beta/usa/ataachment)"

- Shake the packaging before opening.
- Do not apply during the hottest hours of the day.
- Exclusively agricultural use as fertilizer for plants.
- Store the product in places out of reach of children or animals.
- Store in a cool place protected from direct sun light.
- Respect maximum stowage height.

Do not mix **ROOTVOLUTION** with products wich contains phosphorous. With plant protection products carry out chemical compatibility tests before use.

WARNING

The company guarantees the composition, formulation and content of the product. The user is responsible for the use and application of the product, according to the indications for use set out in this label.
